📋 WHAT ? 🔽

ℹ️ Shadow of the Colossus, released in Japan as Wander and the Colossus, is an action-adventure game developed by Japan Studio and Team Ico, and published by Sony Computer Entertainment for the PlayStation 2. The game was released in North America and Japan in October 2005 and PAL regions in February 2006. It was directed by Fumito Ueda and developed at SCEI's International Production Studio 1, also known as Team Ico, the same development team responsible for the cult hit Ico, to which the game is considered a spiritual successor. A remastered version for the PlayStation 3 was developed by Bluepoint Games and released alongside Ico as The Ico & Shadow of the Colossus Collection in September 2011. It features high-definition (HD) graphics, content previously missing from the North American release, PlayStation Network Trophies, and 3D support. The HD version was released separately in Japan. A high-definition remake for the PlayStation 4 by Bluepoint Games was released in February 2018
